PROJECT SCHEDULING & ESTIMATING SUPPORT

Provide white-glove scheduling & cost estimating support during all phases of the project. From initiation to closeout, GRYT can create, review, assist and iterate the most updated schedule and budget for projects. In addition, GRYT utilizes industry standard timelines & subcontractor relationships for up-to-date lead times.

Project Scheduling

- Develop initial schedule for project to assist in go/no-go decision making
- Create master project schedule for project, focusing on critical path items and long lead to ensure risks are clearly communicated & mitigated
- Partnerships with all facets of the project team to ensure related activities are included in schedule (i.e. architects, owner contractors, furniture vendors, etc.)
- Consistent updating of schedule throughout various points of the project and during any major impacts
- Assist superintendents with schedules and/or two-week outlooks
- Provide schedule using Microsoft Project for details, utilize Microsoft Excel for two week-look outlooks, utilize Microsoft PowerPoint for high-level client schedule updates

Cost Estimating

- Cost estimates provided utilize industry standard pricing & subcontractor confirmations (as needed)
- Review of change orders for accuracy
- Review of multiple bids for comparison & accuracy

TEAM QUALIFICATIONS
